

# Drought Water Supply Shortage Summary

## Level 2

### Watering Days:

During the months of November through March, watering is limited to **one** day per week, after 5:00 pm and before 9:00 am.

Designated watering day: **Wednesday**

During the months of April through September watering is limited to **two** days per week, after 5:00 pm and before 9:00 am.

Designated watering days: **Wednesday and Saturday**

This does not apply to low flow drip irrigation systems when no emitter produces more than 2 gallons of water per hour. This also does not apply to watering by hand with a positive self-closing shut-off nozzle.

### No Excessive Water Flow or Runoff:

Watering or irrigating of any lawn, landscape or other vegetated area in a manner that causes or allows excessive water flow or runoff onto an adjoining sidewalk, driveway, street, alley, gutter or ditch is prohibited.

### Washing Vehicles:

Using water to clean a vehicle is prohibited, except by use of a hand-held bucket and hose equipped with a positive self-closing water shut off nozzle or device, or at a commercial car washing facility that utilizes a recirculating water system to capture and reuse water.

### Leaks and malfunctions:

Leaks, breaks, or other malfunctions in the user's plumbing must be repaired within 48 hours of notification by the City of Port Hueneme, unless other arrangements have been made with the City's Water Superintendent.

### Limits on Filling Residential Swimming Pools & Spas:

Refilling of more than one foot and any initial filling of pools or spas with potable water is prohibited.

### Limits on Filling Ornamental Lakes or Ponds:

Filling or refilling ornamental lakes or ponds is prohibited, except to the extent needed to sustain aquatic life, provided that the animals are of significant value and were actively managed prior to the declaration of a water supply shortage.
